

Valley of the Tetons Library: Makerspace (re)CREATION!

Hey there, fellow creators and library enthusiasts!

We've got some news to share that's sure to pique your interest. Our Makerspace is about to transform!  

So, drumroll, please...  From April 26th to June 2nd, the VTL Makerspace will be closing its doors temporarily for a magical transformation!

✨ During this time, Makerspace will be closed as we work to enhance the space and introduce some exciting new procedures. But don't worry, we'll keep you in the loop. Keep an eye on our newsletters and social media for updates or take a peek through the windows.

As part of these changes, we'll be implementing a liability waiver for guardians of children under 18. It's a quick step to ensure everyone's safety and enjoyment in the space.

We've also heard your questions about age limits and supervision, so we're streamlining our guidelines to make things clearer for everyone.

While the Makerspace takes a temporary break, our Driggs branch will remain open as usual with the addition of some fun pop-up activities. Also, check out our program calendar for other afterschool activities.

Change can be a bit unsettling, but we're confident these improvements will make the Makerspace an even better resource for our community. If you have any questions or concerns, don't hesitate to reach out to us at makerspace@votlib.org.

Thanks for your continued support and enthusiasm. We can't wait to unveil the revamped Makerspace and see what amazing creations you'll come up with next!

Best regards,

Valley of the Tetons Library Makerspace Team
